

# K2 and You Solutions 2 Way SMS Module for iMIS

## Real 2-way integration with iMIS using standardized SMS communication protocols (texting)

### From iMIS

- Send a message to an IQA group or an individual (from their profile)
- Schedule a message to be sent at a specific date/time
- Connect a shortcut code to an IQA query

### To iMIS:

- Transaction history is logged to the iMIS Communication log or Activity table
- Responses to text messages (“please remove me”, for example) are logged

### Requirements:

- A version of iMIS with the REST API enabled (cloud or self-hosted)
  - iMIS 2017 SP F or higher required for full “single sign on” functionality
- iMIS full user account configured with the RemoteService role

### Features:

- 100% hosted Software as a Service (SaaS) product; cloud-hosted, SSL-enabled:
- Developed 100% using the iMIS REST API
- Personalized subdomain and local phone number
  - Note: Specific telephone numbers are not guaranteed
- Recipient groups are 100% IQA-driven and managed by the client

	<u>Pre-Teen</u>	<u>Teen</u>	<u>Hipster</u>
<b>1 Year</b>	\$3,840	\$4,700	\$6,420
<b>2 Years</b>	\$7,530	\$9,250	\$12,690
<b>3 Years</b>	\$11,070	\$13,650	\$18,810

**Pre-Teen:** Up to 75,000 SMS messages a year  
**Teen:** Up to 150,000 SMS messages a year  
**Hipster:** Up to 300,000 SMS messages a year

For multi-year license agreements, messages may be rolled over into subsequent years. There will be no credit issued for unused messages at the end of the license term. Additional message blocks (20,000) may be added any time at a single fixed fee of \$250. Both incoming and outgoing messages are included in the message count. The current message count is available for review at any time.

US/Canada pricing and service availability only. Please inquire about pricing for other countries.
